## Announcing the newest toys from SmartLab Toys, perfect for home learning + fun!

**Outdoor Science Lab** comes equipped with everything curious kids need to explore the wide world of science right outside their back door. This portable lab is packed with **real science tools**, hands-on activities, and special components that invite kids to identify, classify, measure, test, and analyze the natural world around them.

**Storm Watcher Weather Lab** is our NEW and IMPROVED all-in-one weather monitoring kit for the budding meteorologist. The weather lab base lets kids conduct experiments involving wind speed, wind direction, temperature, rainfall, atmospheric pressure, the water cycle, evaporation, the greenhouse effect, acid rain, drought, and more.
