

Give Your Opponents Some Space with *Astro Trash*—Now Available from The OP!

“1, 2, 3... *Ditch it!*”

Prepare for this rallying call to launch you and a few other environmental do-gooders on a fun and frantic mission at warp speed! Join the race to declutter your planet by reporting to the tabletop with [Astro Trash](#), the new signature, non-stop dice-rolling game by [The OP](#)!

Thanks to a sanitation craft gone haywire, a collection of debris has been released into our vast universe, covering once inhabitable worlds with disruptive litter! Cleaning up all the *Astro Trash* calls for one quick-acting winner to literally take the matter into his or her own hands.

Free-floating, colorful pieces of trash have to be displaced from your player mat to either be incinerated by the Sun, or disposed of by another player. All that matters is what’s directly in front of you and the results of three dice: one with directions, another with color/shapes, and the third with a number.

Rapidly roll the dice and quickly follow the directives to clear your player mat of the pieces being flung at you from left and right by neighbors with their own sets of dice! Alert the table that you've done your "planetorial" duty by declaring "Clean!" the minute you've out-trashed your opponents, and collect a Trash Trophy to flaunt your fastidiousness. The first player with three Trash Trophies wins the game!

Astro Trash relies on the quick wits and honest actions of all players working simultaneously to be the first one to yell "Clean!" Leverage the results of the direction die, which shows **L** (left), **R** (right), the **Sun**, and **?** (your call) to determine who needs to be bogged down with space junk! The color-coded die corresponds with which kind of trash you can dispose of, which you must abide for the full challenge of thinking fast! The third die shows a **1**, **2**, or **3** to make it a real "numbers game" as that will mark the quantity of trash pieces you're allowed to hand off.

Leave it to luck to get just the dice rolls you need and either lob your trash into the Sun (an immediate decision with no neighbors involved) or implement a strategy to keep one person from cleaning up. *Astro Trash* is for up to five players, ages 6 and up, and includes 15 dice, 50 pieces of Trash, 5 Planet player mats, and 11 Trash Trophies of silly shapes and sizes for players to choose from. Debris, or not debris? There's only one way to find out! Pick up *Astro Trash*, which is now in your orbit at your favorite local game store or [online](#)!
